## Step 1 — Thomas the Train Costumes (Percy and Rosie)

- Cut box top and bottom as seen here.
- Hot-glue top flaps together.
- Spray-paint box.
- Allow 24 hours to dry.

## Step 2

- Cut paper plates to appropriate size for box.

### Step 3

- Paint wheels with black acrylic paint.
- Allow 1 hour to dry.

### Step 4

- Creating Rosie's window and siding.

## Step 5

- The box should be dry now. Paint it the main color of the train that you're making.

## Step 6

- Paint the top of the box black.
- This will be the coal box.

## Step 7

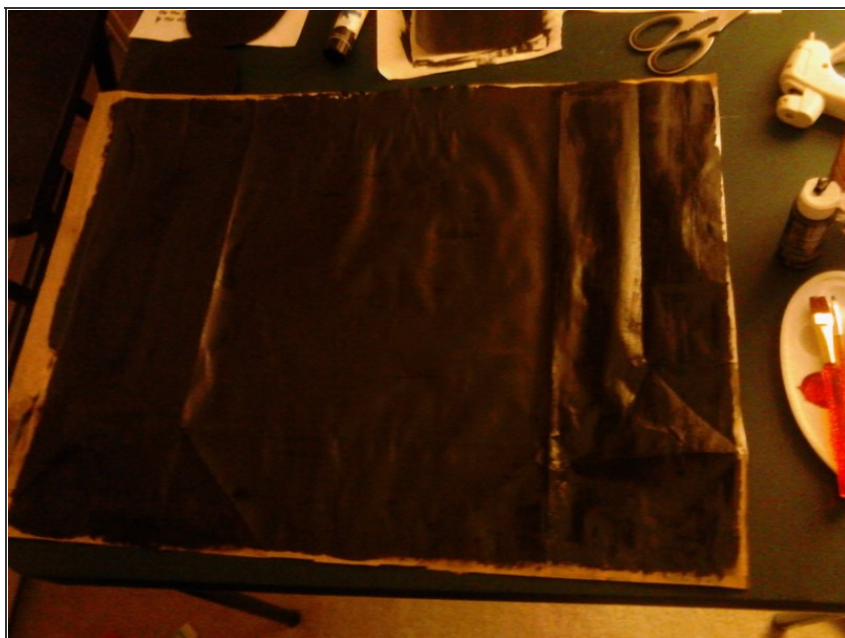

- Start to shape the body of the character. The details shown here are made from white paper bags fastened with hot glue. You can just paint them on also.

## Step 8

- Outline the windows.
- The ladder is made out of paper bag handles.

### Step 9

- Paint another paper bag black for the coal.

### Step 10

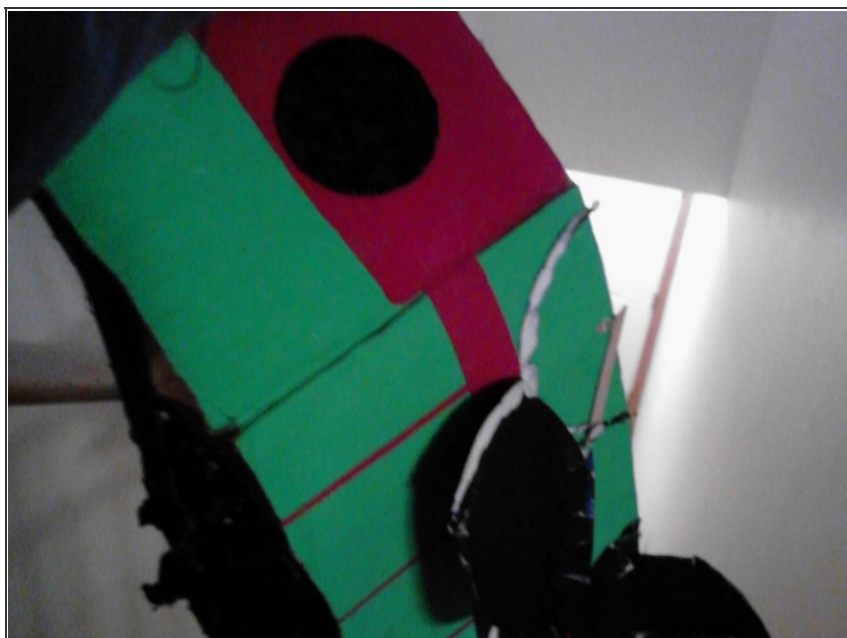

- Don't forget the buffers. (Big deal for the kids.)
- Cut your coal up into strips and hot glue them on. Sorry no pic.

## Step 11

- Hot glue some straps on.
- Pin it on a kid.
- Add some face paint.
- Some spider web for Percy the Ghost Train.
- And presto! Go get some candy.

## Step 12

- Lesson learned: Never go trick-or-treating in the cold rain.
